Make an Origami Guide Dog Puppy

1. Start with a square piece of paper placed with one of the corners facing you. Fold the top corner down to line up with the bottom corner to form a triangle.

2. Somewhere between 1/3 and 1/2-way across the top of your triangle, fold one of the corners down toward the triangle's point but sticking over the edge of the paper. Repeat this fold with the other corner. These flaps will be your origami puppy's ears.

3. Make a fold along the bottom point of the original triangle to create your origami puppy's chin.

4. Now for the finishing touches! Draw a face on your puppy and give him a name.
